

Igor Loskutov

Expert web developer with solid server-side background

Profile

I'm a seasoned developer with problem-solving attitude and strong team work/communication experience. I'm great with proposing solutions and thinking out of the box. Experienced in several programming languages, I don't stop with old development approaches but constantly researching latest trends to bring client code to highest competition level.

Skills

Expert:

Javascript, Node.js, React, Rails

Solid:

Java, AngularJS, SQL, Mongo, AWS stack, Git

Hobby and passionate about:

Scala, Clojure/Clojurescript, Haskell, Elm

Additional useful skills:

Linux, Ansible, Nginx, project management, Jira administration

Fluent in English and Russian.
